

Color Matching

Labels are printed in the 4c process color spectrum that includes special match colors to your requirements. If there are special 'spot' colors (ex: Corporate Logo / Product Specific) a Pantone® COATED color number must be assigned. IF that is not known or available a sample of the color is required to be sent to us and we will match the color to that sample.

Label Size: 2"x8.3125"

OVERLAP AREA: 0.3125"

UNDERLAP AREA: 0.4375"

DESIGN Layout Requirements:

- ☒ 1/8" (.125 inch) is our standard corner radius. Please be aware of the radius corners.
 - ☒ 1/16" (.0625 inch) of bleed must be added to all sides of the finished size
 - ☒ Non-bleeding designs should be 1/16" (.0625 inch) from the finished edge
- COLORS** – special or corporate color matches have a PMS # assigned or a sample send in to match.
- FONTS** - Convert all fonts to outlines/curves

= Bleed Area - all art needs to bleed to the dotted red line.
